The original factory interior configuration for **Gulfstream G200** features a premium **11-passenger executive layout** divided into two primary cabin zones, complete with a forward galley and a private aft lavatory.

Below are the detailed specifications of its "Stand-Up" cabin (6.25 ft / 1.91 m ceiling height):

Seating Arrangement & Cabin Layout

- **Forward Cabin (4 Seats):** A classic **4-seat club configuration**. It consists of four large executive captain's chairs facing each other, featuring full tracking, swiveling, and reclining capabilities. They are separated by two stowable executive writing/dining tables.
- **Aft Cabin (7 Seats):** A mixed conference and lounge area. On the left (LH) side, there is a **3-place berthable divan** (convertible into a bed). This divan directly faces a **4-seat conference grouping** on the right (RH) side, arranged around an adjustable conference/dining table.
-

Materials, Colors & Finishings

- **Seating:** Executive seats are upholstered in high-end *Patagonia Putty* light beige leather.
- **Carpeting & Liners:** The floor features textured *Wheat Carpeting* made of pure wool. Window panels are lined with *Sand Ultra Leather*, while the lower sidewalls are finished in a *Coffee Bean* colored fabric.
- **Woodwork & Plating:** Cabin cabinets and partitions are finished in a premium, *High Gloss Wood Veneer*. All metal hardware, seat belt buckles, and fixtures are plated in a soft *Almond Gold* finish.
-

Onboard Amenities & Services

- **Forward Galley:** A full-service refreshment center located at the aircraft entrance. It includes a high-temperature oven, an espresso/coffee maker, a refrigerated food storage compartment, a large ice drawer, and custom storage for fine tableware and glassware.
- **Aft Lavatory:** A completely private, enclosed restroom area separated by a solid pocket door. It features an externally serviceable vacuum toilet, a vanity sink, storage for amenities, and a large mirror.
- **Acoustics & Extra Seating:** The cabin is equipped with Gulfstream's *Enhanced Sound-Proofing Package* for an ultra-quiet flight environment. A dedicated crew member *Jumpseat* is also installed in the flight deck area.
